

NEW ATHLETIC STADIUM AT YORK UNIVERSITY

# DYNAMIC NEWS

IN THIS ISSUE

## LET THE GAMES BEGIN !

The 2015 Pan Am / Parapan Games are but nine months away, and Dynamic Flow Balancing Ltd is doing their part in helping complete the facilities in time for this celebration of sport!

The balancing of the Welland Flatwater Facility is completed and the facility is ready for the Canoe Kayak Sprint Competitions.

The testing and balancing of the new CIBC Hamilton Pan Am/Para Pan Am Soccer Stadium, venue for soccer events (and home of the Hamilton Tigercats), is now underway.

The Milton Velodrome is another of our projects, and the testing and balancing is just about to begin.

The new Athletics Stadium at York University is progressing, and Dynamic Flow Balancing is anxiously awaiting our opportunity to prepare another great venue for the Pan Am / Parapan Games!

The fall has been, and continues to be busy with school projects, some completed, and some ongoing.

It's fantastic working with so many great clients, many that have become close friends to us. Recently we've had the pleasure of meeting some great new people that we look forward to serving!

Ed Molnar  
President  
Dynamic Flow Balancing Ltd.

## Soccer Champions!

We are very proud of the Dynamic Flow Balancing Ltd sponsored Boys Under 16 soccer team, this year's Oakville League and Cup Champions
